

AgTech Product Name Generator (Exploratory Design)

MJB - 2023-06-21

Contents

consonant+vowel+consonant+vowel+consonant+vowel	2
vowel+consonant+vowel+consonant+vowel+consonant	4
vowel+consonant+vowel+consonant+vowel	6
consonant+vowel+consonant+consonant+vowel+vowel	8
consonant+vowel+consonant+consonant+I+A	10
consonant+vowel+consonant+consonant+B+A+C+T	12

Stipulations:

- Approx. 3 syllables
- Model the form “ceria”
- Try the suffix “-bact”
- Product lists a person can read through but not overwhelm

A person can peruse the lists and maybe find the right *de novo* product name, but they could also simply be inspired to come up with good names that the market and customers would enjoy.

Each time this script is run, it takes a couple seconds and generates all-new lists (in PDF form). This is amenable to revision and refining to get generations of name/brand ideas closer to what would be the most appropriate product names for AgTech products.

consonant+vowel+consonant+vowel+consonant+vowel

This should generate 3-syllable words of the simplest "consonant+vowel" form. We'll make 900 iterations, which is on the low-end of possibilities, and then bump it up to bigger numbers later when we find the sweet spot.

```
sprintf("%s%s%s%s%s",
    stri_rand_strings(900, 1, ' [BCDFGHJKLMNPQRSTVWXYZ] '),

vowel+consonant+vowel+consonant+vowel

Now let's generate 3-syllable words of the other simplest form "vowel+consonant" again but leave off the consonant on the end.

```
sprintf("%s%s%s%s",
    stri_rand_strings(900, 1, '[AEIOU]'),
    stri_rand_strings(900, 1, '[BCDFGHJKLMNPQRSTVWXYZ]'),
    stri_rand_strings(900, 1, '[AEIOU]'),
    stri_rand_strings(900, 1, '[BCDFGHJKLMNPQRSTVWXYZ]'),
    stri_rand_strings(900, 1, '[AEIOU]'))
```

consonant+vowel+consonant+consonant+vowel+vowel

Let's get a little freaky and limit the consonants and vowels a little to get closer to what we might want at each letter.

```
sprintf("%s%s%s%s%s",
